I am an enthusiastic, hardworking, and driven full stack web developer, who enjoys finding creative solutions for ordinary problems. I incorporate teamwork, kindness, and generosity in everything I do.

RELEVANT EXPERIENCE

General Assembly, Washington, D.C. – *Full-Time Web Development Immersive*

December 2018 – March 2019

Full-stack web development student at an intensive, thirteen-week (500 hours) professional training program. Developed skills in object oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects including:

·**Connect App**: A storytelling app where people can share and write their stories, while readers can comment on story posts. JavaScript | HTML | CSS | MongoDB | Express | Node.JS | Handlebars

·**Expense Tracking App**: An app that tracks your expense and revenue. Javascript | CSS | MongoDB | Express | Node.JS | React

·**Get to Know your Representative**: An app that list VA representatives, their districts, and live tweets. Javascript | CSS | MongoDB | Express | Node.JS | React | APIs

Seven Day Market, Washington, D.C. — Assistant *Manager*

August 2014 – Present

- Maintain staff by: recruiting, selecting, orienting, and training employees, maintaining a safe, secure, and legal work environment.
- Ensure quality service by enforcing standards for about 200 customers a day; analyzing and resolving quality and customer service problems, identifying trends, recommending system improvements.

Sentara Martha Jefferson Hospital Finance Department, Charlottesville, VA — *Intern*

April 2017 – May 2017

- Constructed and presented a financial report on Starr Hill Center, a non-profit branch of the hospital. This allowed the Hospital to fix information on its contract with the outreach program, and renew its contract.
- Attended daily meetings in the finance department and other departments within the hospital. Used data, and notes, to inform leadership on weekly reports.
